SUMMARY

As a junior front-end developer, I possess a strong foundation in HTML, CSS, JavaScript and React. I am well-prepared to contribute to the development of dynamic web applications. My approach to problem-solving is meticulous, and I have a keen eye for detail, ensuring the delivery of high-quality code and seamless user experiences. With a proactive and collaborative mindset, I am eager to learn from experienced professionals and contribute my skills to innovative front-end projects.

PROJECT EXPERIENCE

Cinemania, GitHub repository (JavaScript, HTML5, CSS3, Git, REST API, Axios, Responsive Web Design, Parcel, Figma)
Role: Developer of two sections: Weekly Trends and Upcoming This Month. Additionally, implemented a modal window

Mimino, GitHub repository (HTML5, CSS3, Responsive Web Design, Figma, Vite)
